Art Unit: 1751

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-28 and 40, drawn to a cleaning sheet, classified in class 428, subclass 543.
 - II. Claims 29-32 and 39, drawn to an overall non-immersion cleaning/refreshment process for treating a fabric, classified in class 8, subclass 137.
 - III. Claims 33-36, drawn to a kit/product comprising one or more cleaning sheets, classified in class 510, subclass 277.
 - IV. Claims 37-38, drawn to an article of manufacture which is adapted to clean/refresh fabrics in a hot air clothes dryer, classified in class 510, subclass 439.
2. Inventions I, III or IV, and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process such as cleaning hard surfaces.

Art Unit: 1751

3. Inventions III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the search required for Group I is not required for Group II, III or IV, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
